Budapest Open Access Initiative

In response to the growing demand to make research free and available to anyone with a computer and an internet connection, a diverse coalition has issued [new guidelines](#) that could usher in huge advances in the sciences, medicine, and health.

The recommendations were developed by [leaders of the Open Access movement](#), which has worked for the past decade to provide the public with unrestricted, free access to scholarly research—much of which is publicly funded. Making the research publicly available to everyone—free of charge and without most copyright and licensing restrictions—will accelerate scientific research efforts and allow authors to reach a larger number of readers.

The recommendations are the result of a meeting organized by the Open Society Foundations to mark the [tenth anniversary](#) of [Budapest Open Access Initiative](#), which first defined Open Access. The recommendations include the development of Open Access policies in institutions of higher education and in funding agencies, the open licensing of scholarly works, the development of infrastructure such as Open Access repositories and creating standards of professional conduct for Open Access publishing. The recommendations also establish a new goal of achieving Open Access as the default method for distributing new peer-reviewed research in every field and in every country within ten years' time.

[Translations of the recommendations](#) have already been made in several languages, with more to follow.

For more on the recommendations, please see the [press release](#) as well as a [blog post](#) by Peter Suber which provides additional background on the Open Access movement.

Берлинская декларация открытого доступа

The screenshot shows the homepage of the Berlin Declaration website. At the top, there is a navigation bar with links for Contact, Sitemap, MPG, and Deutsch. Below the navigation is the Open Access Max-Planck-Gesellschaft logo. A large banner features the text "BERLIN DECLARATION" and "OPEN ACCESS Max-Planck-Gesellschaft". The main content area includes a sidebar with links for Berlin Declaration, Signatories, Mission Statement, Expression of Interest, Berlin Conferences, Positions, Activities, and Notes. The central content area contains the text of the Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities, followed by a section titled "Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities" and a "Preface". To the right, there is a "SIGNING INSTRUCTIONS" section and a "PDF VERSIONS BERLIN DECLARATION" section listing various languages.

BERLIN DECLARATION

The Internet has fundamentally changed the practical and economic realities of distributing scientific knowledge and cultural heritage. For the first time ever, the Internet now offers the chance to constitute a global and interactive representation of human knowledge, including cultural heritage and the guarantee of worldwide access. We, the undersigned, feel obliged to address the challenges of the Internet as an emerging functional medium for distributing knowledge. Obviously, these developments will be able to significantly modify the nature of scientific publishing as

Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities

Preface

Governments, universities, research institutions, funding agencies, foundations, libraries, museums, archives, learned societies and professional associations who share the vision expressed in the Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities are therefore invited to join the signatories that have already signed the Declaration.

Expanding Public Access to the Results of Federally Funded Research

FEBRUARY 22, 2013 AT 12:04 PM ET BY MICHAEL STEBBINS

Summary: The Obama Administration is committed to the proposition that citizens deserve easy access to the results of research their tax dollars have paid for. That's why, in a policy memorandum released today, OSTP Director John Holdren has directed Federal agencies with more than \$100M in R&D expenditures to develop plans to make the results of federally funded research freely available to the public—generally within one year of publication.

The Obama Administration is committed to the proposition that citizens deserve easy access to the results of scientific research their tax dollars have paid for. That's why, in a policy memorandum released today, OSTP Director John Holdren has directed Federal agencies with more than \$100M in R&D expenditures to develop plans to make the published results of federally funded research freely available to the public within one year of publication and requiring researchers to better account for and manage the digital data resulting from federally funded scientific research. OSTP has been looking into this issue for some time, soliciting broad public input on multiple occasions and convening an interagency working group to develop a policy. The final policy reflects substantial inputs from scientists and scientific organizations, publishers, members of Congress, and other members of the public—over 65 thousand of whom recently signed a *We the People* petition asking for expanded public access to the results of taxpayer-funded research.

To see the new policy memorandum, please [click here](#).

Проект ROARMAP – The Registry of Open Access Repositories Mandatory Archiving Policies

The screenshot shows the ROARMAP website homepage. The header features the ROARMAP logo with a globe icon and the text "Registry of Open Access Repository Mandates and Policies". Below the header is a navigation bar with links for Home, About, Browse, Help, and Data Visualisations. There are also "Login" and "Create Account" buttons. The main content area is titled "Welcome to ROARMAP" and contains three sections: "Register a New Policy" (with a link to "Create a new policy record."), "Search the Database" (with a link to "Search the database using a full range of fields. Use the search field at the top of the page for a quick search."), and "Total Mandates (by type)" (with a link to "Please select a value to browse from the list below." followed by a bulleted list of categories: Funder (86), Funder and research organisation (57), Multiple research organisations (11), Research organisation (e.g. university or research institution) (860), and Sub-unit of research organisation (e.g. department, faculty or school) (82)). At the bottom of the page are links for "Policies Adopted by Quarter" and a menu icon.

DSpace у СПбГУ

The screenshot shows the homepage of the DSpace repository for Saint Petersburg State University. At the top, there is a dark navigation bar with icons for Home, Browse, Policies, and Help, along with search and sign-in options. Below the bar, the university's coat of arms is displayed next to the text "Research Repository Saint Petersburg State University". A green banner below the coat of arms reads "DSpace at Saint Petersburg State University". The main content area features a large white box containing a welcome message and a link to a user manual. The welcome message introduces the repository as a digital collection and research platform for SPbU faculty, students, and staff. A green button at the bottom right of the white box is labeled "Russian user manual".

DSpace at Saint Petersburg State University

Welcome to Saint Petersburg State University Research Repository!

DSpace SPbU is a digital collection and institutional research repository that captures, preserves, and disseminates the intellectual property created within the Saint Petersburg State University community. It is designed to promote SPbU scientific research, creative activity and enable their discovery via the Web. The Saint Petersburg State University Institutional Repository contains documents and publications authored or co-authored by SPbU faculty, students, and staff.

ePrints у Университета Саутгемптона

The screenshot shows the ePrints Software page. At the top, there is a navigation bar with links for LATEST NEWS, EPRINTS FOR, SERVICES, SOFTWARE, COMMUNITY, and ABOUT. A search bar with a magnifying glass icon and a Twitter icon is also present. The main content area features the ePrints logo and the title "EPrints Software" by Justin, dated December 18, 2015. Below this, there are social sharing icons for Facebook, Twitter, and Google+. A horizontal line separates this from the download section. The download section includes links for the latest version (v3.4.3) and the latest 3.3 version (v3.3.16), along with ".tar.gz", ".deb", and ".rpm" file formats. It also features "Install Guide" links for "Debian/Ubuntu" (with its logo) and "Redhat/Fedora" (with its logo). A small cartoon character is visible in the bottom right corner.
